EMPLOYMENT SKILLS

Customer Service

- Lead monthly meetings with families, listened to input on programs, and acted as liaison between stakeholders and Board of Directors.
- Answered calls, email correspondence, and resolved customer or product issues.

Office Administration

- Scheduled calendar appointments, meetings, conference calls, travel coordination, and translation.
- Completed program enrollments, organized and maintained health files and all agency documents.

Social Work & Education

- Provided direct services to a caseload of 60 families and coordinated referrals to community programs.
- Mentored and managed Intern to identify areas of need with families and collaborate with them to create a plan of action and motivate them to achieve measurable goals during the program.

Technical

- Built static websites with HTML & CSS using version control with Git and Github while problem solving issues and building full stack software development skills.
 - UI/UX Design, created wireframes with AdobeXD, and edited photos using Gimp photo editing software for creation of static websites.
 - Built table based email marketing templates for Mailchimp and other ESPs during self-guided learning.
-
